

Senior PHP developer with WordPress

Proxify – uncovering the world's hidden talent since 2018

Proxify connects talented tech professionals like you with long-term remote opportunities at top companies in the USA, Sweden, Germany, the Netherlands, and beyond.

We believe that talent has no borders and value skills and experience above all else.

Since our launch, Proxify has connected over 5,000 talented developers land their dream remote job, at over 1,200 companies.

The Role

We are looking for a **Senior PHP / WordPress Developer** to join one of our network. You will play a key role in building robust and dynamic websites and applications using WordPress and PHP. You'll collaborate with cross-functional teams to build scalable, high-performance web solutions.

This is a **long-term, full-time remote** position. You'll have the opportunity to work on high-impact projects with modern development practices.

Main responsibilities

- Develop and maintain custom WordPress themes and plugins using PHP
- Build scalable, secure, and optimized web applications
- Work closely with designers and frontend developers to implement user-friendly interfaces
- Write clean, well-documented, and testable code
- Troubleshoot, debug, and optimize existing applications
- Integrate third-party APIs and services
- Participate in code reviews and sprint planning
- Stay current with industry trends and best practices in WordPress and PHP development

Requirements

- 5+ years of professional experience in PHP development
- 3+ years of hands-on experience with WordPress (custom themes, plugin development)
- Strong knowledge of MySQL and database optimization
- Proficient in HTML, CSS, JavaScript (jQuery), and RESTful APIs
- Familiarity with Git, CI/CD workflows, and deployment tools
- Experience working with popular page builders (e.g., Elementor, Gutenberg)
- Excellent communication skills in English
- Ability to work independently in a remote environment

Nice to have

- Experience with WooCommerce, ACF, or multisite WordPress installations
- Familiarity with headless CMS architecture
- Understanding of SEO, accessibility, and performance optimization
- Knowledge of Laravel or Symfony is a plus
- Contributions to WordPress.org or open-source projects

Why work remotely with Proxify?

- **Accelerate your tech career**
Discover exclusive long-term remote engagements at the world's most interesting product companies.
- **Find your dream role**
Skip the typical recruitment roadblocks and biases with personally matched engagements.
- **Gain more freedom**
All Proxify roles are 100% remote, no more long commutes and being restricted to the local job market.
- **Speedy application**
You only need to apply to Proxify once, and, if successful, we'll recommend you to jobs matching your profile. No more endless edits of your resume!
